

DIRECTORY BOARD SIGNS

Architectural Modular Series

AM Series Directory Boards are available in all shapes and sizes. The design and layout options are endless. Choose your width, height and number of inserts depending on the text and copy required. Headers, larger panels for maps or floor plans along with separate number or level inserts are just a few of the options available when customising your directory board.

These signs are just a few ideas, contact us if you have any questions or would like some assistance in designing your directory board.

All dimensions are in inches.
